“Majesty is the best composite I have ever used! With one shade and a few layered increments, a beautiful restoration was completed very quickly. And, when I showed our patient her new filling, she was thrilled! She couldn’t even find it!”

“I am absolutely ecstatic you sent me the Clearfil Majesty Esthetic and syringe of Clearfil Majesty Flow. Upon first use in my office, I concluded that I must have an eye problem because I was not able to decipher where I had placed both items on various teeth in the mouth. After a subsequent eye exam, my doctor assured me my lenses were correct. The Chameleon effect of the materials to match the shade of tooth was unsurpassed!”

Dr. William Swinson

“I’ve been using Clearfil SE Bond for several years and I have recently added Majesty Esthetic. I have been amazed at the shade matching qualities and polishability. It will replace the composite I am now using. Wonderful product!”

“We’ve made the switch to Majesty after using Ultradent Vit-I-escence for several years. Placement is easier (less “sticky”) and shade is correctly achieved by fewer shade varieties. We had to order 15 different shades with Ultradent!”
